Facilities & Asset Management Solutions

Effective Facilities and Asset Management serves to provide an organisation with consistency to maintain assets that support an organisation's primary activities by minimising risk, reducing costs and increasing end-user satisfaction.

TPG provides **Facilities & Asset Management Solutions** using maintenance-customised models to drive improvement to support your organisation's response to changing business and operational demands.

TPG will support you to achieve your desired outcomes across core and non-core services and to give you and your people the confidence they need to ensure industry best-practice.

TPG Facilities & Asset Management Solutions will benefit your organisation by providing you with the development of a synchronised **Master Plan and Programmed Maintenance Schedule** to facilitate and promote:

- ◆ Reduced Costs.
- ◆ Forecasting and planning abilities.
- ◆ Improved and planned processes.
- ◆ Reporting and measurable outcomes.
- ◆ Financial metrics – budgets and actuals.
- ◆ Contractor management – engagement, facilitation and compliance.
- ◆ Resource management – internal and external.
- ◆ Flexibility.
- ◆ Trusted advice and consultation.
- ◆ Risk minimisation for employees, client and customers, Management and Board of Directors.

TPG provide you and your organisation with the professional advice, service and know-how so that you can focus on your core service deliverables.

Our **Facilities & Asset Management Solutions** close-the-loop and provide you with the confidence that your organisation's property portfolio is operating to its maximum efficiency.
