

Commercial Sector Project Management Solutions

Project success criteria are often defined as the standards by which the **project** will be judged at its conclusion to determine whether or not it has been **successful** in the eyes of stakeholders.

TPG is your trusted project manager that assists you in risk assessment, minimisation and mitigation in any property related project – large or small.

Our qualified and professional team has extensive, demonstrated experience in project management and development with a proven track record working with commercial clients and community sector stakeholder projects.

Our project area of specialisation includes:

- ◆ New installations.
- ◆ Purpose built commercial facilities.
- ◆ Residential, Commercial and Industrial subdivisions and development.
- ◆ Custom design and build projects.

We have the expertise to support you with small to medium projects such as solar installations across residential living facilities to overseeing large, multi-use building project development.

Working with your strategic objective in mind, our team can provide support and guidance from concept stage, right through the town planning process, surveyors, engineering, civil works, construction, issuing of titles and finally the sales and marketing phases.

TPG Project Management Solutions reduce decision-making risk that can affect the quality of the project outcome.

We support your organisation by identifying key project risk factors and then execute strategies to minimise and mitigate risk scenarios so they don't go unchecked.

Contact us today to see how **TPG Property Services Advisory Specialists** can work for you and your organisation.
