

# Faith-based/Not-for-Profit Sector Project Management Solutions

**TPG is your trusted Project Manager that assists your organisation in risk assessment, minimisation and mitigation in any property related project – large or small.**

TPG has extensive experience in project development and management, working with large social welfare enterprises, religious orders, congregations, dioceses and parishes on projects ranging from installations to new, purpose-built facility constructions.

Our project management experience includes large-scale, bespoke operational buildings, parishioner hubs, parish subdivisions of superfluous land, multi-lot, residential property development and national installation and programmed maintenance roll-outs.

Working with your mission, vision or ministry objectives in mind, our team can provide support and guidance from concept stage, right through the town planning process, surveyors, engineering, civil works, construction, issuing of titles and sale phases.

Our project management, development management and project experience includes:

- ◆ Project concept stage, providing options and advice.
- ◆ Sourcing and managing town planners and surveyors with planning applications from concept to permit stage.
- ◆ VCAT appeals processes.
- ◆ Surplus land subdivisions and boundary adjustments.
- ◆ Multi-lot residential developments overseeing processes that include design, surveying, town planning, civil works constructions, media, sales and other job-related professionals.

**TPG Project Management Solutions** reduce decision-making risk that can affect the quality of the project outcome.

We support your organisation by identifying key project risk factors and then execute strategies to minimise and mitigate risk scenarios so they don't go unchecked.

Contact us today to see how **TPG Property Services Advisory Specialists** can work for you and your organisation.
